

# SPLITBAND QUICK GUIDE

Thank you for your purchase! Here are a few things you should know.

## General:

- Do not get wet or leave in a hot car.
- The elastic can be adjusted by removing the panel from one side and re-tying the knot. The elastic might be too tight or get loose over time, for example.
- If you want to enhance your band, there are lots of extra screw holes, strap loops, and a few 5mm LED holes hidden inside.
- All SplitBand halves are cross-compatible with other models.

## Battery Swaps:

- Battery type: CR2032    Hex wrench: 2mm    Screw type: M3x8mm
- Each half is self-contained, so the battery will be on the side with the power switch.

I'm always working on new sci-fi gear! If you like this kind of stuff, follow [@starside\\_armory](#) on Instagram for updates. Thanks again for your support, I couldn't do this without you!

See you starside,
